Part 2 – Description of workpackages and activities

In Part 2 describe in detail the activities that you will undertake in order to achieve the objectives you described in Part 1 of this document. This section is divided into several workpackages (WP), i.e.: set of activities leading to one or more specific deliverables that you wish to produce.

Any project will have a minimum of two WP: Workpackage 1 with the management and coordination activities and Workpackage 2 with deliverables related to the objective of your project. (This does not imply that a project with just two WP will necessarily score low). The division should be logical and guided by the different identifiable results of an activity. The application form contains boxes for projects with up to 5 Workpackages (including management and coordination). If you think your project has more than 5 WP, please try to group them to be able to present them in the space provided.

Under each WP you should then enter an objective, list specific activities that you will undertake and list the expected deliverables, milestones and critical risks.

► WORKPACKAGE 1 - MANAGEMENT AND COORDINATION OF THE PROJECT

Workpackage 1 is intended for all activities related to the general management and coordination of the project (kick-off meetings, coordination, project monitoring and evaluation, financial management) and all the activities which are cross cutting and therefore difficult to assign just to one specific Workpackage. In such case, instead of splitting them across many Workpackages, please enter and describe them in Workpackage 1. For this reason, this Workpackage has a different layout, where you do not have to enter objectives and duration. Nevertheless, it will have its own deliverables and corresponding budget.

Limit their number and do not include minor sub-items or internal working papers. Indicate the language(s) in which your activity is organized and nationalities of the participants.
